

## Discover the World of Digital Language Lab

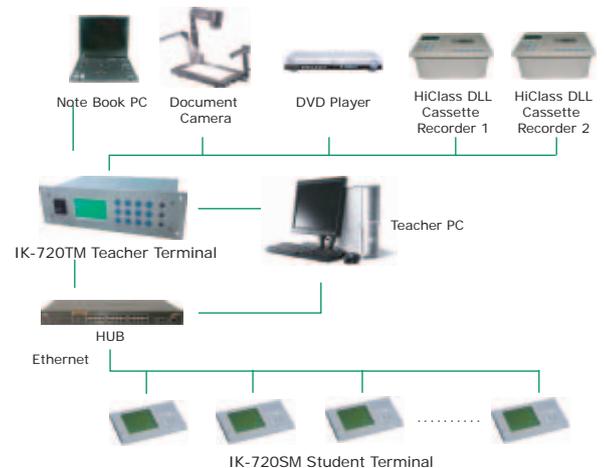

HiClass DLL is a robust and easy to use digital language lab solution that provides variety of functions for interactive learning and multimedia content that capture the interest and attention of all students. It stimulates a more efficient learning and teaching experience. HiClass DLL can increase the proficiency in language learning.

Research has shown that many students perform significantly better with multimedia content and hands-on interactivity. HiClass DLL facilitates rapid language learning through a combination of stimulating multimedia content, interactivity, and a highly flexible anywhere and anytime learning model.

### Functions

- ◆ Students learn more, faster and efficient by HiClass DLL
- ◆ Prepare, teach and assess language learning in one single system
- ◆ Very simple to use with not too much training and to implement
- ◆ Real time communication and multimedia contents
- ◆ State of the art functions for versatile teaching and learning
- ◆ Examination Wizard makes student assessment easy

### IK-720 Digital Language Lab

## System Components IK-720 series

<p>DLL Teacher Console program</p> <p>Teacher Terminal IK-720TM</p> <p>Student Terminal IK-720SM</p>	<p>The Center of HiClass DLL system. All the functions are carried out by this Teacher Console.</p> <p>Teacher could use basic functions such as Broadcasting, Speaking, Student Demonstration, and Dialogue using the panel even if the computer is off.</p> <p>Student can view the material from teacher and interact with other student DLL terminals. Student can also use the Function Keys or P/S2 Keyboard to answer the question or send text messages.</p>	  
<p>Cassette Recorder IK-1820R</p> <p>DLL Headset</p> <p>Ethernet Switch and UTP cables</p>	<p>Content of courses can be recorded to Cassette recorder and teacher can press " Tape " button to broadcast the content from Cassette recorder to the students.</p> <p>DLL Headset is developed specially for the intensive listening requirements of language learning environments.</p> <p>Teacher Terminal, Student Terminals, Teacher PC and Resources Server are connected together via the standard Ethernet Switch.</p>	  

### Main Functions

Student demonstration	Oral test
Dialogue	Self study
Monitor	Audio Chat
Simultaneous Interpretation	A-B Repeat
Dictation	Text and Auto read
Multi - Channel	Play Speed
Group	E board
Examination	Live recording
Quiz	

### Lesson Preparation

- Prepare Courseware
- Prepare Examination

### Examination Functions

- Standard Exam, Oral Exam
- Auto Score
- Listen to student's recording and give score

### Order Information

- IK-720TM**  
HiClass Digital Language Lab Teacher
- IK-720SM**  
HiClass Digital Language Lab Student
- IK-1820R**  
Cassette Recorder

### IK-720 System Requirement

DLL Teacher Terminals	Dedicated HiClass DLL Terminal with build in DSP Chip, function keys, LED panel and A/V in/out ports.	
Teacher PC	CPU	P4 2.4GHz+
	Memory	256M+
	HD	40G+
	VGA card	Stand Alone VGA cards is recommended, 16MB+
	Sound Adapter	Full Duplex
	O.S.	MS Windows XP SP2
DLL Student Terminals	Dedicated HiClass DLL Terminal with build in DSP Chip, keyboard and LED panel.	
Student PC	IK-720 can be implemented without student PCs	
Network	100/1000M Ethernet network
